

▲ SUMMARY

Full-Stack Senior Software Engineer II with 10+ years of experience building intelligent software solutions. Initially a Product Engineer, transitioned to Developer Experience, Platform Architecture, and AI-powered tooling. Track record of leading high-impact initiatives at scale, supporting hundreds of internal engineers by building scalable, performant systems. Built a first in class Progressive Deployment System, touching every area of the tech stack from Typescript, Go, Python, Scala, and Kubernetes.

▲ EXPERIENCE

Credit Karma

2020 — Present

Senior II Software Engineer

- Build AI-powered developer tooling and spec-driven workflows on the AI Platform team, used daily by engineers across the org
- Built a Progressive Deployment Service with automated rollbacks and metric-driven gates
- Sole leader of Front End Efficiency program, supporting 1,000+ engineers with Developer Experience
- Team lead for the first in class Money product at Credit Karma, serving over 150 million members
- Architected next-generation local development workflows and build systems along with broad quality and testing initiatives

Lyft

2017 — 2019

Senior Software Engineer II

- Developed high-traffic Lyft.com properties serving millions of users
- Built Developer Portal for third-party integrations, collaborating with external partners
- Led a sophisticated design system re-architecture, working on high traffic pages within the Lyft ecosystem

Spotfund

2017 — 2019

Full Stack Engineer

- Architected entire Front End application from ground up, building a microdonation platform serving thousands of users
- Designed deployment, testing, and build strategies
- Led technical architecture decisions and collaborated with stakeholders

Believe Labs

2010 — 2019

Founder and CTO

- Built applications for startups to Fortune 500 companies
- Delivered projects for Goop, BuzzFeed, Dollar Shave Club, and more
- Specialized in high-performance React applications

▲ SKILLS

Developer Experience	CI/CD Pipelines, GitHub Actions, Docker, Kubernetes, Terraform, Webpack, Vite, Turborepo
AI Platform	Claude / Anthropic API, OpenAI API, MCP servers, RAG & vector search, AI agents & tool use, LangChain, Prompt engineering & evals, Python / FastAPI
Frontend Platform	React, Next.js, TypeScript, Tailwind CSS, Storybook, Design Systems, Web Components
Backend & Infrastructure	Node.js, GraphQL, PostgreSQL, Redis, AWS, Vercel, Prisma
Testing & Quality	Playwright, Vitest, ESLint, Prettier, Feature Flags, Observability

▲ EDUCATION

University of Colorado Boulder

2008

Bachelor of Science — Business (Finance & Management)
